ARTIK CLOUD

Up and running in 4 minutes

Experience Samsung ARTIK Cloud's flexibility firsthand

START NOW

Click on Device types under Dashboard

The image shows a web browser window with three tabs: 'ARTIK Cloud', 'ARTIK Cloud Developers', and 'Twitter'. The address bar shows the URL 'https://developer.artik.cloud'. The page header includes the Samsung ARTIK Cloud logo, the text 'developers', a user profile for 'BRIJESH SINGH', and a search bar. A navigation bar contains links for 'OVERVIEW', 'TOOLS & RESOURCES', 'DOCUMENTATION', 'BLOG', 'DASHBOARD', and 'ARTIK CLOUD'. A dropdown menu is open under 'DASHBOARD', showing three options: 'APPLICATIONS', 'DEVICE TYPES' (which is highlighted with a red border), and 'MY ORGANIZATION'. The main content area features a large blue banner with the text 'Up and running in minutes' and 'Experience Samsung ARTIK Cloud's flexibility firsthand', along with a 'START NOW' button. The background of the banner is a city skyline.

ARTIK CLOUD

ARTIK Cloud is open and device agnostic

Devices can upload data to ARTIK Cloud in any format that works for them.

- Any data, any message, sent and received in real-time
- Develop private device types with security built in
- Share device type capabilities with other developers

Add your device type

Tell ARTIK Cloud what your device type is called then start building a Manifest to describe it further.

<- Device created

Create a manifest for todayTempDevice

ARTIK Cloud is designed to communicate with any device regardless of how data is structured. The Manifest provides a way for you to describe your data, so that you can start sending data to ARTIK Cloud.

now create manifest->

+ NEW MANIFEST

New Manifest

DESCRIPTION

The field description is an important way for you to explain in more detail what this data is to other users.
